The product(s) shown on this report have been independently verified as eligible products for use in achieving points toward project certification under ICC-700 National Green Building Standard. Home Innovation Research Labs authorizes accredited verifiers to award points toward certification without additional documentation when the product(s) is used as noted below.

2020 NATIONAL GREEN BUILDING STANDARD			
PRACTICE #	PRACTICE DESCRIPTION	POTENTIAL POINTS AVAILABLE	ADDITIONAL CONDITIONAL OF USE TO AWARD POINTS
602.2(1)	Products that are in accordance with the ENERGY STAR® cool roof certification or equivalent	3	Product must be used for 90% of the roof surface.
611.1.2	At least 10 different products are installed with product-specific Type III EPDs. All EPDs are certified as complying with the goal and scope for cradle-to-gate requirements in accordance with ISO Standards 14025 and 21930. 5 points available.	5	A minimum of 10 products with certified EPDs were selected and installed.

GRESB Scoring Potential

GRESB is a framework widely used by commercial and multifamily organizations that measures the ESG (Environmental, Social, and Governance) performance of a company’s real estate portfolio. Certification to the following 2020 NGBS practices indicates that this product potentially contributes to one or more GRESB Indicator(s). For more information, visit www.ngbs.com/ESG and www.GRESB.com.
