CERTIFICATE # 387

This certificate is not a representation, warranty, or guarantee of product performance or certification of code compliance. For details of the product warranty, consult the product manufacturer.

NGBS Green Certificate #NGBSGCP-000387

Product: SANCTUARY® by Greenfiber® Cellulose Insulation

Manufacturer: Greenfiber

The product(s) shown on this report have been independently verified as eligible products for use in achieving points toward project certification under ICC-700 National Green Building Standard. Home Innovation Research Labs authorizes accredited verifiers to award points toward certification without additional documentation when the product(s) is used as noted below.

2020 NATIONAL GREEN BUILDING STANDARD			
PRACTICE #	PRACTICE DESCRIPTION	POTENTIAL POINTS AVAILABLE	ADDITIONAL CONDITIONAL OF USE TO AWARD POINTS
604.1	Building materials with recycled content are used for two minor and/or two major components of the building. 1-6 points available.	6	Points awarded for 2 products w/ recycled content. For 6 points, this product and another product with at least 75% recycled content must be used for major components of the building. Lesser points available for lower recycled content in the second product or for use as a minor component.
610.1.2.1	A product with improved environmental impact measures compared to another product(s) intended for the same use is selected. 2 points for product with 4 impact measures; 3 points for product with 5 impact measures. 10 points max.	3	Points are available when this product is selected over another option based on LCA analysis. The material to which this product is compared must be suitable and reasonable for the building and local market.
901.11	At least 85% of wall, ceiling, and floor insulation materials are in accordance with the emission levels of CDPH/EHLB Standard Method v1.1 and third-party certified by an ISO 17065 program. 4 points available.	4	Product is used for at least 85% of the wall, ceiling, or floor insulation materials.

GRESB Scoring Potential

GRESB is a framework widely used by commercial and multifamily organizations that measures the ESG (Environmental, Social, and Governance) performance of a company’s real estate portfolio. Certification to the following 2020 NGBS practices indicates that this product potentially contributes to one or more GRESB Indicator(s). For more information, visit www.ngbs.com/ESG and www.GRESB.com.

NGBS Green Certificate #387

Product: SANCTUARY® by Greenfiber® Cellulose Insulation

Manufacturer: Greenfiber

Practice #	Practice Description	GRESB Indicator
604.1	Building materials with recycled content are used for two minor and/or two major components of the building. 1-6 points available.	DMA1 Materials selection requirements
610.1.2.1	A product with improved environmental impact measures compared to another product(s) intended for the same use is selected. 2 points for product with 4 impact measures; 3 points for product with 5 impact measures. 10 points max.	DMA1 Materials selection requirements, DMA2.1 Life cycle assessments , DRE1 ESG strategy during development
901.11	At least 85% of wall, ceiling, and floor insulation materials are in accordance with the emission levels of CDPH/EHLB Standard Method v1.1 and third-party certified by an ISO 17065 program. 4 points available.	DMA1 Materials selection requirements
